**To company and organizations  
executives  
(by list)**

Peoples' Friendship University of Russia (PFUR) expresses its respect and informs the following.

A competition is announced to the **Master program** on "**Innovative technologies and nanotechnology in medicine pharmacy and biotechnology**" within the framework of an *accredited* 222900 "*Nanotechnology and Microsystems Engineering*" in 2015.

This educational program is implemented on the basis of Scientific and educational center in the direction of Education and Research Center «**Nanotechnology**» PFUR (ERC «*Nanotechnology*») with the participation of leading companies OOO «Farmkontakt», SPFO etc.

The aim of the program is to train highly qualified specialists with applied skills in biomedical and pharmaceutical technologies and nanotechnology to work in major public and private biomedical and pharmaceutical companies of the country and the world centers of nanotechnologies.

Requirements - higher education ( bachelor, specialist ), high level of personal motivation , a willingness fulfill the requirements of the curriculum program.

Upon completion of training, graduates of the program receive - two diplomas of Russian and International standard with a Masters qualification , allowing to work in prestigious Russian and foreign companies and research centers.

Also, the **ERC "Nanotechnology"**, offers individuals and organizations a wide range of services in the field of research of nanostructures using modern complex scientific and analytical equipment .

Please bring this information to interested individuals and organizations.

Willing to answer all of your questions and discuss any options for mutually beneficial cooperation.
